

PUBLICATIONS GRANT

What is it?

The GSA Council has released funding for publications. This funding may be used to directly fund student societies/ Graduate Groups affiliated to GSA for:

1. Student publications (journals, magazines)
2. Publications of conference proceedings or research collections.

The funding is not provided to individual students who wish to publish articles but is only for graduate groups affiliated to GSA to support their group activities.

Applying for funding

Groups who apply must outline whether they are applying for their student publication (1) or for (2) publications of conference proceedings or research collections.

Groups can apply for a maximum of \$2000. We recommend amounts less than \$500 unless you have a compelling case for funding.

To apply, you need to outline:

- Number of students participating in the publication and/or conference (include the percentage of UoM graduate or postgraduate students)
- What part of the publication the funding will support
- Why you need the funding - why you are not using faculty funds, corporate sponsorship, contributions from participants or general GSA graduate group funding
- How GSA will be acknowledged

Administration

Applications must be for future expenditure within the GSA financial year, 1 January - 31 December. Applications received will be processed from application to payment within 7-14 days.

Spending funds

Funding must be spent within the financial year for which it is requested or returned to GSA. A GSA financial year is between 1 January and 31 December in any given year.

Role of Executive

The programs department at GSA administrate and authorise funding.

The publications grant is provided at the discretion of the GSA Executive, and may be suspended at their discretion.
